

## Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

**5** minutes

## Key rules of brainstorming To run an smooth and productive session

Stay in topic. - Encourage wild ideas.

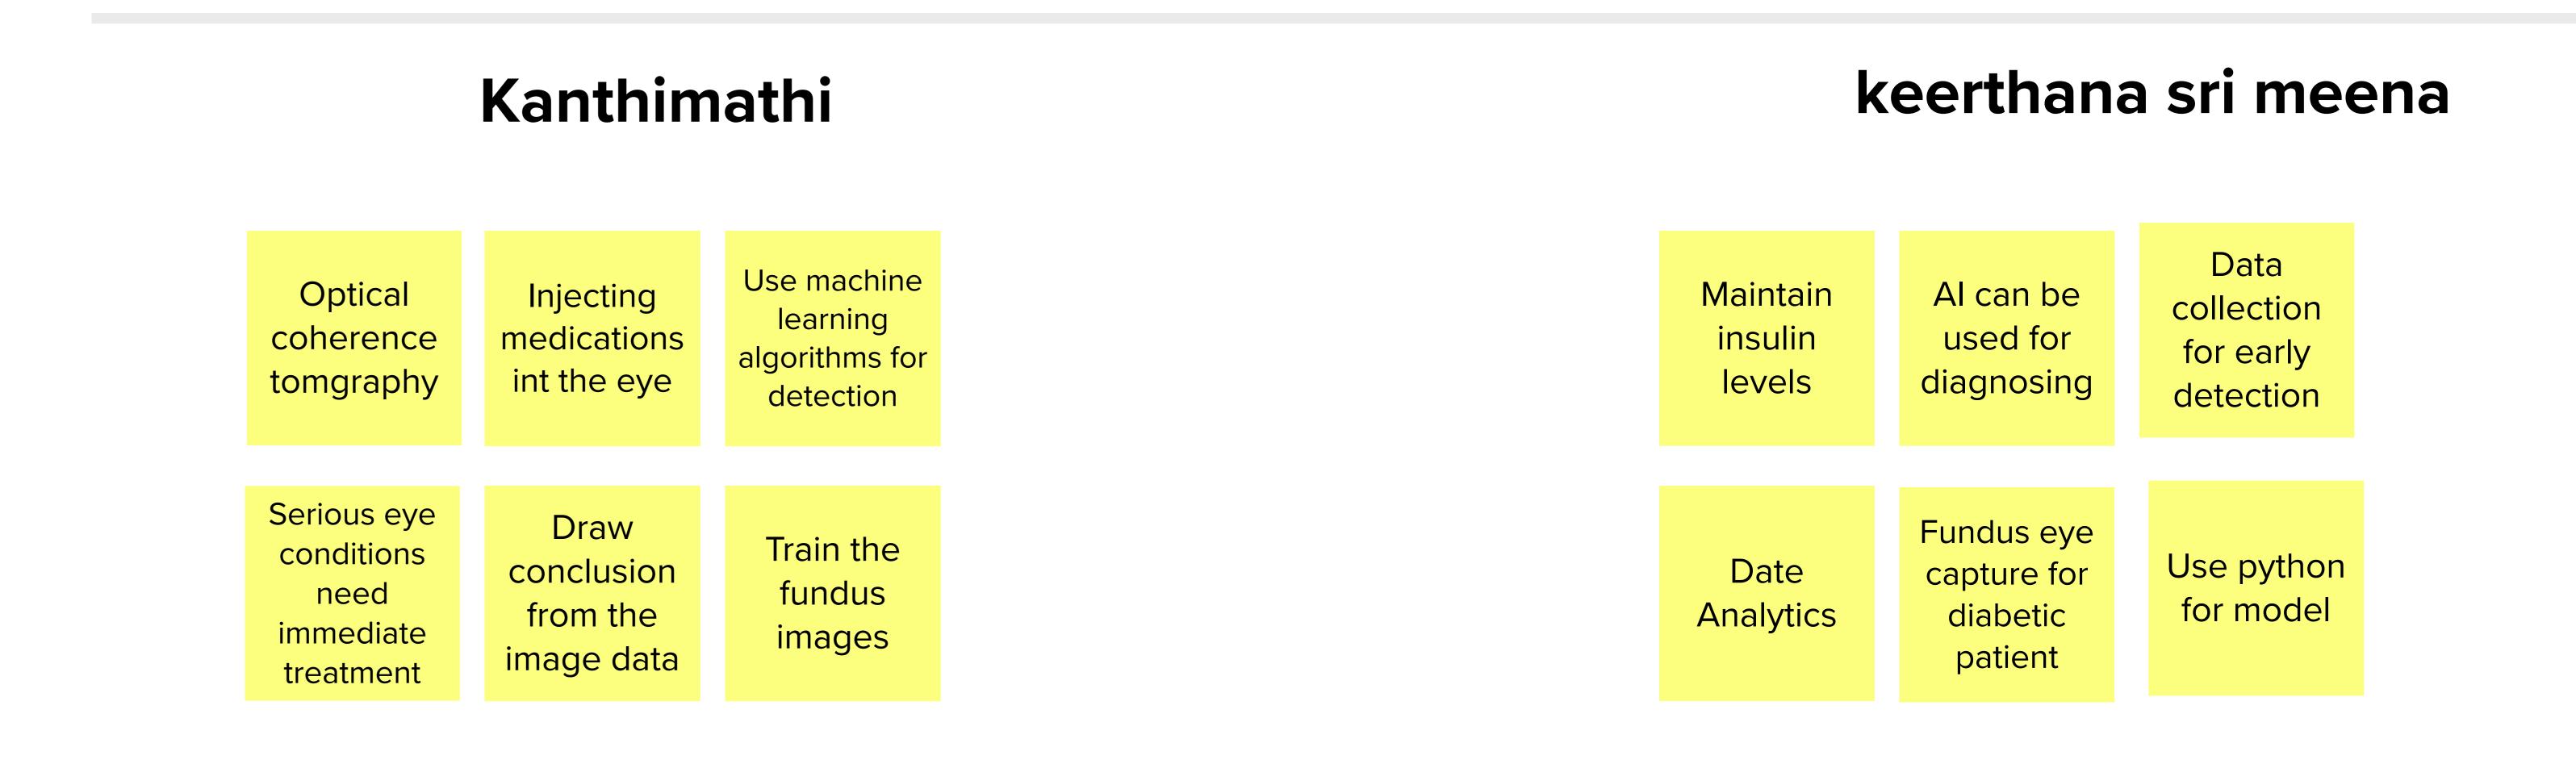

### Brainstorm

Write down any ideas that come to mind that address your problem statement.

① 10 minutes

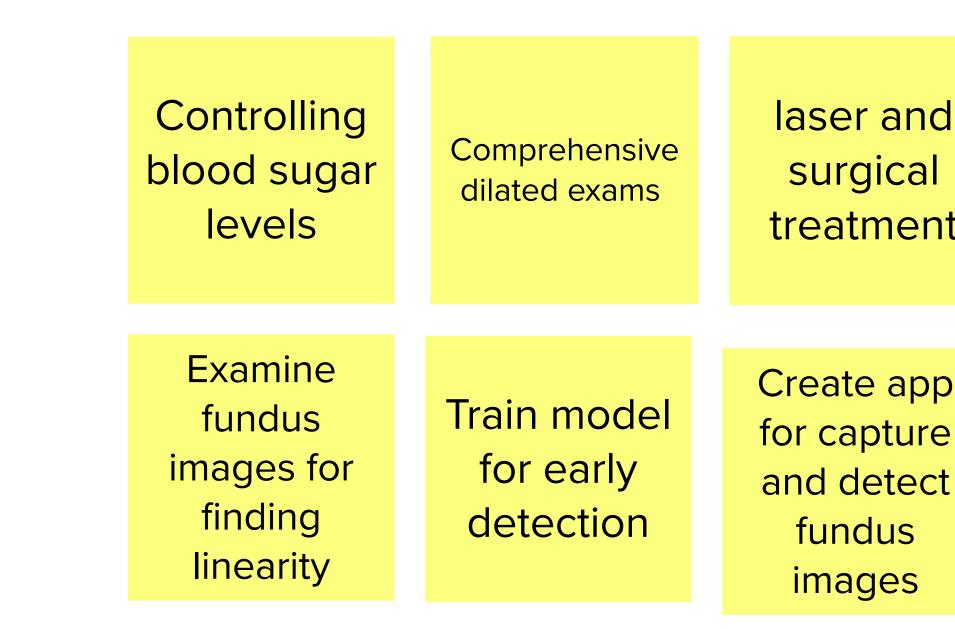

Frequent eye examination for diabetic patients	CT scan are not efficient	Photocoagulation
Symptoms analysis	Deep learning techniques are efficient	use python for creating model

# Lekhashree

## Yoga priya

CT can be used to detect early stages	Vitrectomy treatment	close examination of diabeting patients
Analyzing pattern of symptoms among Dt patients	Smart fundus photography	python is easy for developin

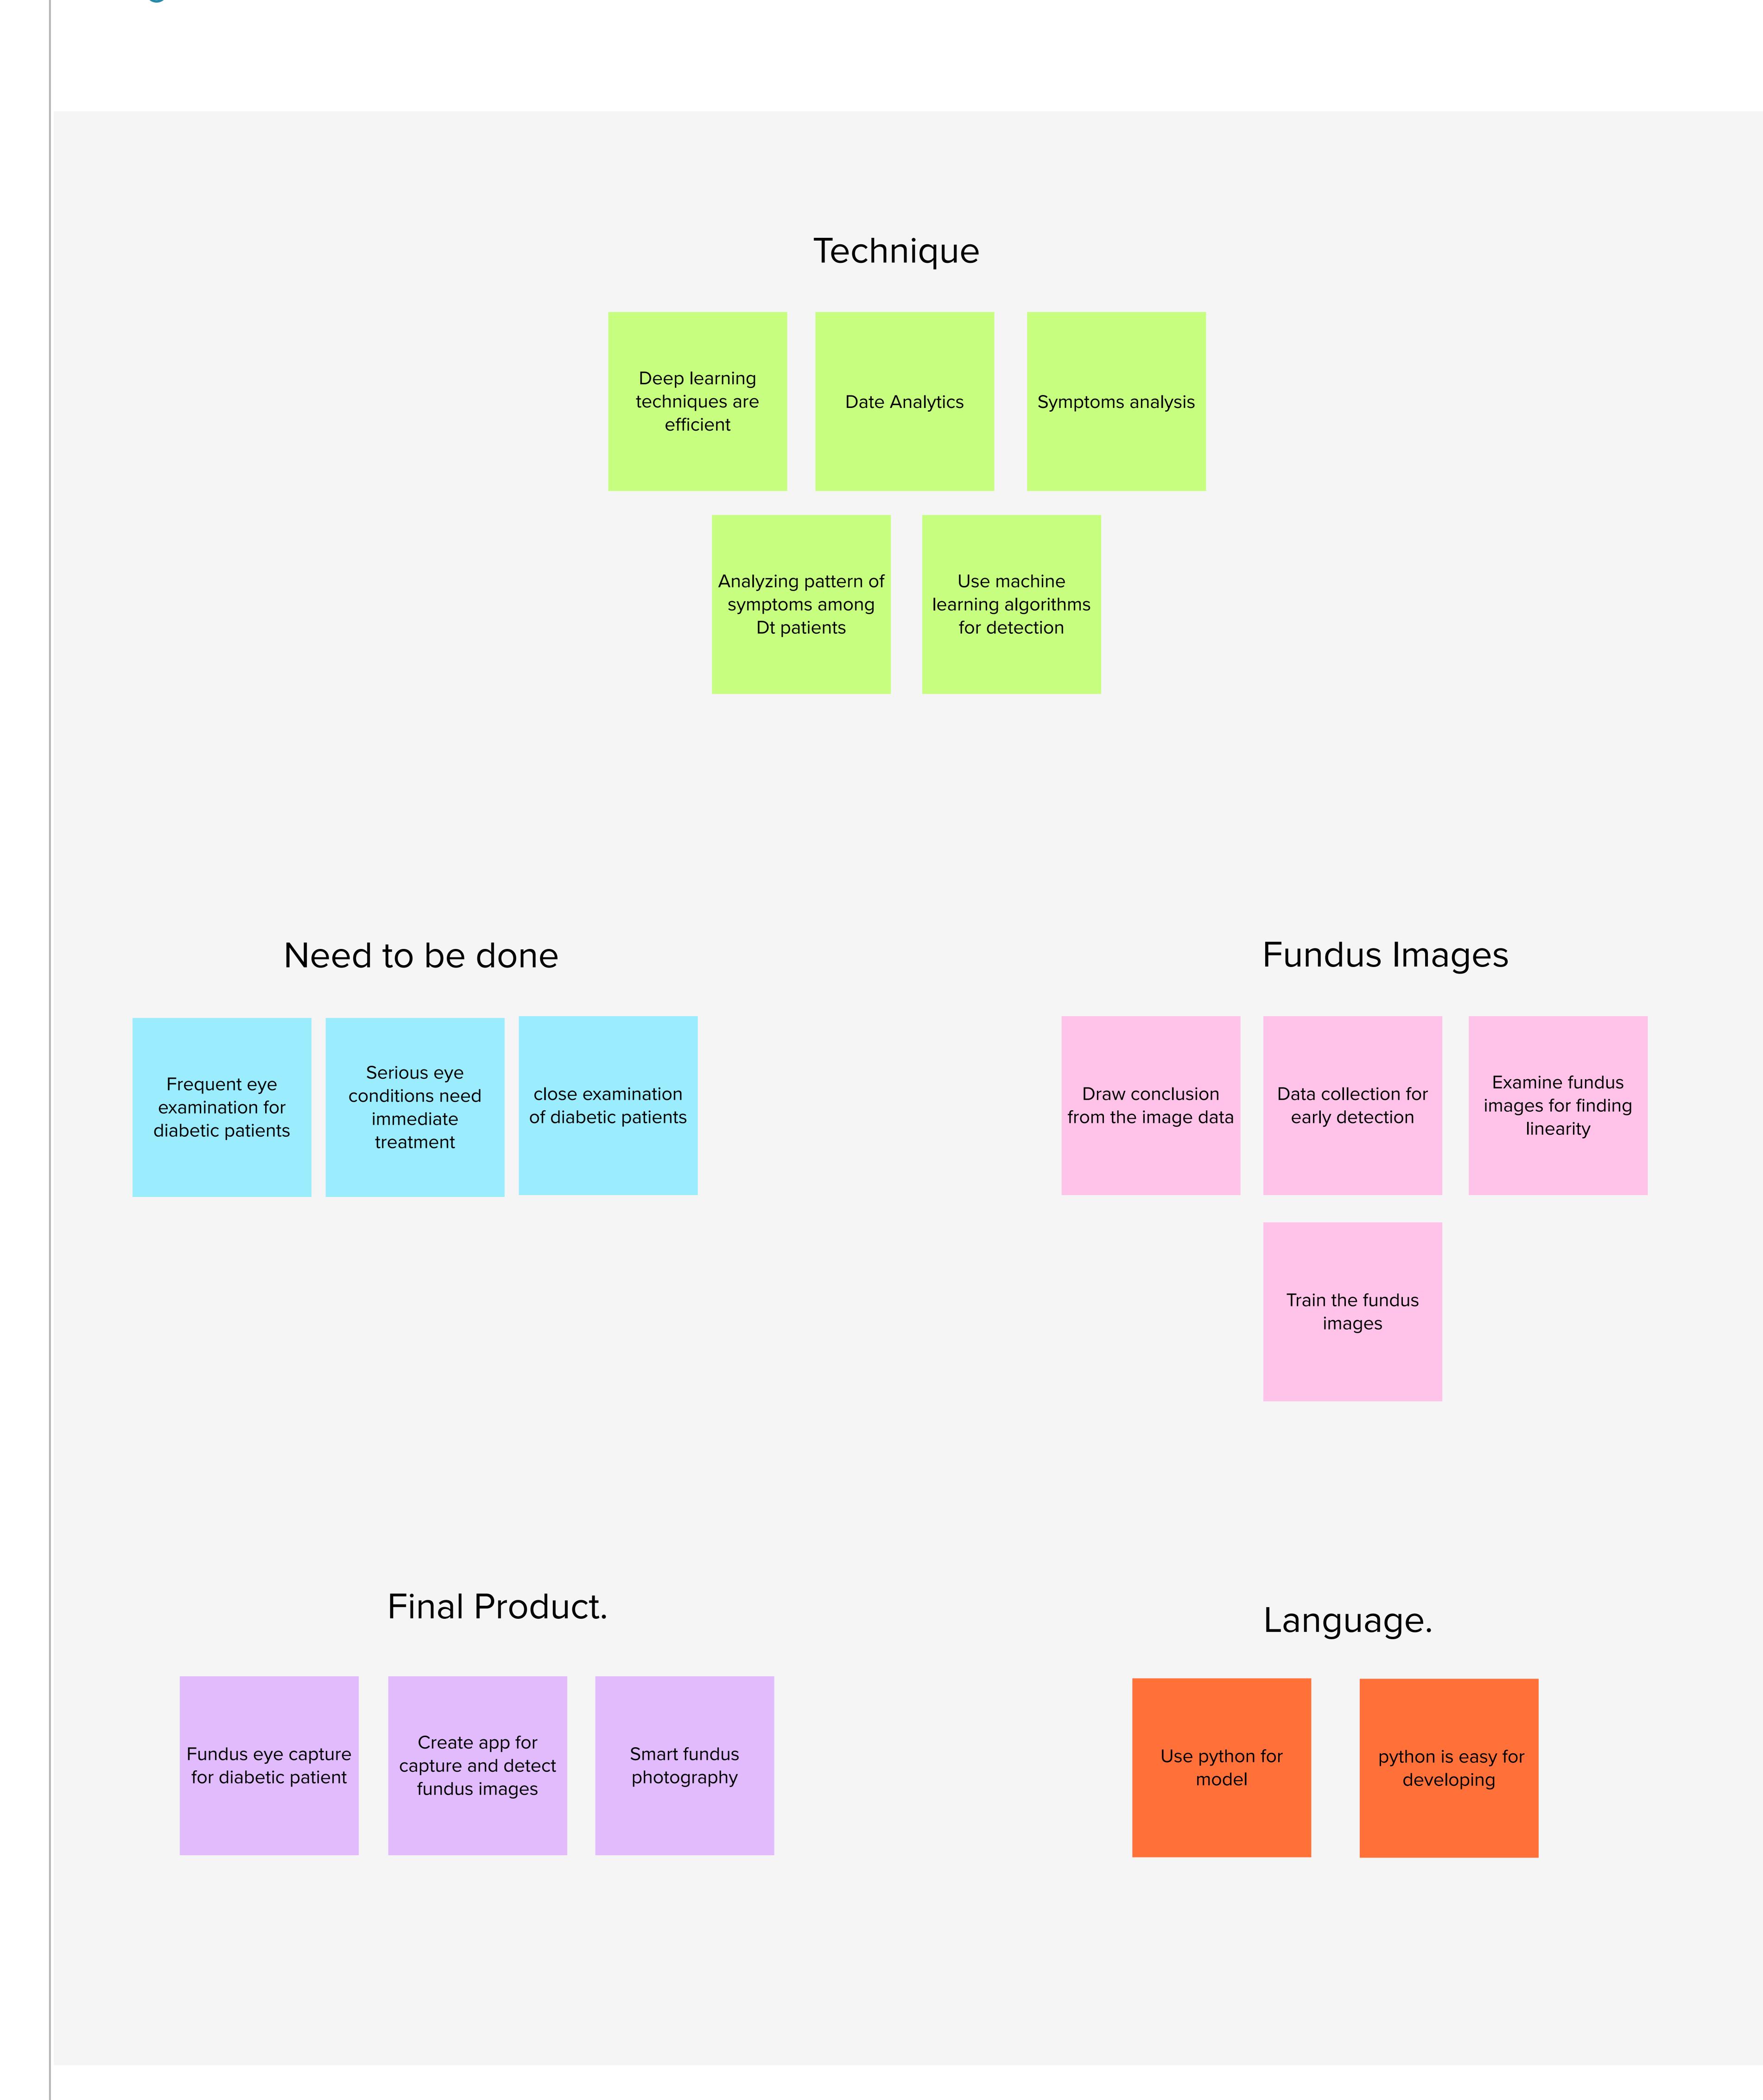

### Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

① 20 minutes

## Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

① 20 minutes
